Re: Richard Turlington, AIA

To Whom It May Concern:

This letter is an extremely strong recommendation of Mr. Richard Turlington's capabilities both as an architect and a project manager. Over the past 10 years, Mr. Turlington has directly assisted Silver Hill Hospital's ("Hospital") complete and total buildings and infrastructure renovation on a 44-acre campus in New Canaan, CT the cost of which, to date, approximates \$35,000,000.

Mr. Turlington was chosen by the Hospital even though his bid for performing this work was not the lowest of several firms requested to bid. Rather, the decision was based on his sensitivity to the Hospital's needs, both current and future, as well as his vision with regard to patient care and staff satisfaction which drove the Hospital's decision to hire him.

The Hospital's goals with regard to the treatment of its patients have been greatly enhanced by the environment he has provided. Should you need any additional information regarding this matter, please do not hesitate to contact me.

Very Truly Yours

Ruurd G. Leegstra, CFO
